## Legion Carnival Huge Success; Runs Extra Day

Proceeds Expected to Be  
Around \$2,000; Used  
for Welfare Work

So successful was the American Legion's annual carnival, originally scheduled for Thursday, Friday and Saturday, that it was held over for an extra day, through Sunday.

It got off to an auspicious start Thursday with what General Chairman John Horan described as "the best opening night the Legion has experienced in its 15 years of operating carnivals."

"The Legion and Auxiliary members were more than pleased with the fine co-operation from their own membership and from the general public," Horan said. "This year's attendance was one of the most orderly we have ever had."

"The Legion committee feels assured that after expenses are paid they will realize around \$2,000 profit, of which one-third will go to the Auxiliary for its various welfare and service programs."

Legion funds are used for the benefit of veterans and service men.

### Bond Winners

Charles Hoge, Antioch, was awarded the \$50 war bond given as a special prize Sunday night. On Saturday evening, E. D. Coy, Libertyville, dealer, received a \$25 bond. Coy purchased a book of tickets while attending the annual Lumbermen's golf tournament at the Chain of Lakes club, where Roman B. Vos sold 50 books to qualify for winner of first place in ticket sales for the carnival.

Legion committees for the festival included C. L. Heath, Walter K. Hillis, Roman B. Vos, Harry Messing, Floyd Horton and James Waters.

On the Auxiliary's committees were Mmes. Eva Burnette, Anne Heath, Carolyn Horan and Agnes Hillis.

They were assisted by the general membership of both organizations, and by a number of other townspeople.

## Antioch Rescue Squad to Hold Dance Aug. 25

Channel Lake Pavilion Will  
Be Scene of Annual  
Benefit Party

Always an enjoyable affair, the Antioch Rescue Squad's annual dance, to be held Wednesday evening, Aug. 25, in the Channel Lake pavilion, is expected to draw a good attendance. There will be special features, and sandwiches and other refreshments will be served.

Proceeds from the dance are used for the maintenance and operating expenses of the squad.

In view of the present shortage of physicians, the squad's rescue and emergency aid has become even more valuable to Antioch and nearby communities than it has been in the past. Its members are all graduates of Red Cross standard or advanced first aid courses, and some have received instructor's training.

The squad works in close co-operation with physicians, since it maintains mobile equipment such as oxygen tanks, inhalators, and a truck equipped with stretchers, splints, and many other emergency aids. Even a standard physician's kit is carried on the truck, and has proved useful on more than one occasion.

The squad receives same aid from the village of Antioch, but answers many calls from outside the Antioch territory.

The high school office will be open for this purpose from 9 a. m. to 9 p. m. each day during this period.

"It would be much appreciated if students would register early in the week, thus avoiding a last minute rush," said Birkhead. "If students are unable to appear, some member of the family may register for them. Parents are invited to accompany the students to assist in the registration."

There are three vacancies to be filled in the high school teaching staff at the present time, the principal states, those of teacher of mathematics, of Latin and English, and of English and social science.

## Rescue Squad Called 3 Times In 20 Minutes

Motor Bike Accident, Sudden Illness, Hurt Finger  
Bring Appeals

The Antioch Rescue squad was kept going "on the double" Sunday afternoon, with three calls within 20 minutes climaxing a busy week-end.

Charles Temple suffered a severed artery in his left leg and cuts and bruises to his face when the motor bike on which he was riding skidded in gravel as he was passing the Northshore Gardens of Lake Catherine. A call was put in to the rescue squad at about 5:10 p. m. Sunday afternoon, and Temple was given emergency aid and taken to St. Therese hospital in Waukegan, where the artery was tied and two stitches were taken in his face.

At around 5:30 members of the squad were summoned to the Antioch News office when Robert E. Gaston, ANM 3/c, who was home from Glenview for the day was taken suddenly ill. He was removed to his home, where Dr. H. F. Beebe of Grayslake attended him. He had recovered sufficiently to return to Glenview by the following morning.

While this call was being received the six-year-old daughter of a couple vacationing here was brought in, suffering from a dislocated finger, and was given emergency treatment.

Early Sunday morning, the squad worked for three hours in a vain attempt to revive Anton M. Einholzer, Jr., 46, of Long Lake, who was electrocuted by the current from wires attached to a light he was using in the bottom of a 15-foot well at his home on Wilton road.

Einholzer had been working on the well nights, by electric light, and he and his father, 77, had apparently been so employed throughout Saturday evening. The call to the rescue squad was put in at around 12:58 p. m. from Velisek's tavern.

The Fox Lake first aid squad assisted the Antioch men in efforts to resuscitate Einholzer.

He had apparently been attempting to cut one of the wires, and still had a pair of pliers in one hand and was holding the wires with the other at the time he was discovered by the Antioch squad and removed to the surface.

Friday afternoon, an inhalator unit was rushed to the Mineola hotel, Fox Lake, by the squad in a vain attempt to revive Bernard Thorpe, Chicago, who collapsed with a coronary ailment.

Mr. and Mrs. Thorpe had come to Fox Lake that afternoon to celebrate their twentieth wedding anniversary.

### Village Council Makes "News"

Last week the Antioch News carried a strange and startling story.

Nobody telephoned in to ask if it was "really true," there were no wild rumors flying around about it, no excited groups of people gathered on street corners gossiping about it, no metropolitan newspapers sent star reporters here to see how this strange thing came to pass. It was accepted placidly.

Nevertheless, it was, as we have said, an unusual thing.

In the face of war-time cost increases, in the face of worries about inflation, in the face of all additions to the cost of living that war times bring about—the Antioch village council reduced the tax levy for 1943 by nearly one-sixth. Whereas the 1942 tax levy amounted to \$11,730, this year's will be only \$11,225. This in spite of the fact that increases in salary have been granted to village employees.

The Antioch village councilmen and President George B. Bartlett are to be congratulated on this achievement, particularly in view of the fact that it has been accomplished through no skimping in municipal service, but through careful "long term" planning.

The village's bonded indebtedness has been reduced to \$4,500.

All in all, the village "Dads" really deserve a pat on the back for this piece of good news—not only for saving wisely, but for spending wisely.

Antioch has had a number of municipal improvements made during recent years. A stoker has been installed in the village hall, the sewage system has had various improvements made, to meet recommendations of state board of health, and the water supply has the distinction of never having been, so far state tests have shown, otherwise than pure and safe.

CONGRATULATIONS!

### Remember Esau

Remember Esau, in the Old Testament? He sold his birthright to Jacob for a mess of pottage. Esau came in from the pasture lands, where he had been with his herds, and he was pretty hungry. The future, when

he would come into his inheritance, seemed a long way off, but he was hungry right now, and that pottage smelled pretty good.

Well, we're all sometimes a little bit like Esau. We like to get things right now. We figure maybe we can even have what we want now and still have it later on, too. The future looks uncertain, but the present is here.

That's human nature, and we can't change it. Nevertheless, we can be a little bit more careful, and look things over from the standpoint of both the present and the future.

We are now engaged in a war so vast that it staggers the imagination; a war that is taking, has taken and will take a terrible price in life, money, suffering and human effort. It is all-important that we win that war, on all of its manifold fronts.

And when that war is over, the stricken countries who have hungered beneath the oppressors will look to us, and to other nations of the western hemisphere, for food, and as in the past, we shall no doubt share with them gladly.

We shall have to bind up our own wounds, care for our own suffering, and pay our own debts.

And through it all, we must endeavor to safeguard not only the liberties of others, but our own. If we cast aside the individual self-reliance that has been our salvation in the past, and lean weakly upon the federal government, or the state government, or the various bureaus maintained by them, instead of standing on our own feet, we shall have sold our future for a mess of pottage.

It's up to us, right now, to keep our local governments, our county governments, our state governments and our federal governments functioning wisely and efficiently. We must work to have waste eliminated wherever it is noted; we must use our influence to get full value for our money; we must see that the freedoms which our young men are fighting, and sometimes giving their lives, to preserve, are preserved; that the burdens they must take up when they come back are not too heavy, and that, above all things, the FUTURE is kept free.

Government's function is not to feed or support the individual, save in cases of extreme need, but rather, to do the things for all of us together which we could not do singly. It is not a parent; it is an employee.

It isn't for us to blame Washington if things don't go right; but it is up to us to see that those whom we have chosen as our "leaders" do the right kind of a job. If they fall down on the job, if our future is not kept free, the blame is not for them. It is ours.

Just remember Esau and that pottage, and remember that the future is going to last a long, long time.

Park. Miss Lucile Schumacher will leave Sunday, Aug. 15, for Los Angeles and Santa Barbara, Calif., later going to Hollywood where she is to sign a contract for Paramount Pictures.

During the blackout Mr. and Mrs. Maurice Lux of Bristol visited their mother, Mrs. Ottilda Schumacher.

Sunday evening of last week while watering some calves Mr. Lux was knocked down by an enraged bull. By quick thinking he threw the pails

diverting the bull's attention for a moment, while he climbed to safety. Mrs. O. Schumacher and son, John, made a business trip to Kenosha Friday.

Mrs. F. Stachel of Clinton, cousin of the late Pete Culver, and Mr. and Mrs. M. Nicholson of Kenosha were recent visitors of Mr. and Mrs. Arthur Bushing.

Mrs. George Mertz, Paddock Lake, called on her cousins, Mr. and Mrs. Daniel Longman.

# A message from the United States Treasury about YOUR WARTIME TAX DOLLARS ★

**T**HE American people have accepted the highest tax bill in the history of the country with splendid patriotism and cheerfulness. The Treasury Department of the United States feels that an explanation is due them in turn—feels that they deserve to be told why, when and how their tax dollars are vital to winning this war and the peace that will follow.

## As a taxpayer, consider these facts:

Our government is currently spending 240 million dollars each day, almost all of it on war, and this figure will increase materially as the war continues. About a third of that amount is being raised through taxes. Those tax dollars are as necessary for weapons with which to defeat our enemies as are dollars raised through the sale of WAR BONDS. Hence, when you pay taxes today you are definitely and directly contributing to victory.

And, at the same time, your taxes actually help to maintain your own purchasing power *now*—and prevent disaster to your country *after the war*. Here's how:

## Billions of Dangerous Dollars

Every time your cost of living advances, you are paying a tax on your income. If your cost of living should double, you would pay a tax of 50% on your salary, wages or other income. But it would be a tax that wouldn't benefit our fighting forces, our government or anyone else—except Hitler and Hirohito.

Now—to prevent such a concealed tax on your income from taking place—isn't it good sense as well as sound patriotism to pay your government taxes of 20% on *part* of your total income—or more, if necessary?

And your taxes *do* help prevent just such a price rise! How? By taking part of the billions of dangerous dollars which otherwise threaten your living standard and putting them to useful work, winning the war. Those billions of dangerous dollars, you know, represent the difference between the income the American people will receive this year and the amount of civilian goods that will be made in the same twelve months. If taxes were lower, prices would tend to rise, and your real income would be reduced by just that much.

## Keeping the America He Knew

There's another reason why your high taxes help your country in wartime—and really a much more important one to you. Your tax money is helping to win the war now—but it's equally essential to winning the peace and keeping the America that boy knew before he went into the armed forces.

All the industrial power, all the inventive genius and productive capacity of this country would not bring back a busy, prosperous America that we know if a drastic deflation followed victory. And, as surely as the sun that rises in the morning will set at night, a deflation would follow an inflation brought about by failure to tax ourselves realistically now.

So, next time that tax burden seems heavy to you—think of these facts. Remember that your tax dollars are helping *you* pay for victory now—that they are in there fighting for your living standard now—and that they are working to keep our country's financial structure sound for that boy now in the armed service, for all your family, and for you in the years of peace to come.

## SOME QUESTIONS AND ANSWERS ABOUT YOUR TAX BILL

**Q. How much of my federal tax payments is being spent on war and how much on so-called "normal" expenditures?**

**A.** About 96% of your tax payments are currently going to pay for direct war expenditures. Only one dollar in every twenty-two you pay, therefore, goes for all other federal expenses, most of which are indirectly to aid the war effort.

**Q. How much of the total war bill is being paid currently out of taxes?**

**A.** A little over one-third.

**Q. Is this proportion higher or lower than in England and Canada?**

**A.** Lower. Both Canada and Great Britain are paying approximately half of their war expenses through taxation.

**Q. Is there any way other than taxes and war bonds by which the government could finance our share of the war?**

**A.** There is. The government could borrow from the commercial banks,

which would put even greater spending power in the hands of the people—thus creating a basis for inflation.

**Q. Is there any other advantage in financing as large a share of the war bill as possible through taxes?**

**A.** Yes—and a very real one to you, the taxpayer. All the bills for the cost of the war must be paid sooner or later through taxation, but if paid currently, from taxes, there will be no interest charge to mount over the years and provide an extra burden for you to carry.

**Q. So far, so good. But don't you think taxation is unfair in the way it distributes the burden for all this?**

**A.** On the contrary, and we believe you will agree if you think it through, that taxes are the fairest, most equitable way to pay for the war. That's because Federal income taxes are levied on *ability to pay* for something that all of us need and must have—victory now, a sound America later.

## Golden Wedding Is Celebrated in Chicago By F. B. Christmans

Mr. and Mrs. F. B. Christman, who have made their home at Cross Lake for the past seven years, celebrated their golden wedding anniversary Friday with a reception at the Palmer House, in Chicago, and a wedding dinner in the Marine dining room of the Edgewater beach hotel.

Guests at the reception included Mrs. E. R. Wallace and son, Michael, of Cleveland, O., granddaughter and great-grandson, respectively, of the couple; Mrs. C. M. Miller, Youngstown, O.; Mrs. Dwight Gerber, Pitts-burgh, Pa.; Mr. and Mrs. H. P. Gerber, LaGrange, Ill.; and Mr. and Mrs. H. M. Miller, Chicago. Mrs. H. M. Miller and Mrs. H. P. Gerber are daughters of the Christmans. Nine guests were present at the dinner.

Mr. and Mrs. Christman were married in Chicago the year of the first World's Fair, and made their home there until coming to Cross Lake. Mr. Christman, who was engaged in the printing industry, was one of the very early linotype operators, learning that trade in 1889.

The Christmans were presented twin yellow gold wedding rings by their family in honor of the anniversary.

## Double Ring Service Unites Mildred Bauman and Howard J. Bonner

Miss Mildred Bauman, daughter of Mrs. Lewis Bauman of Millburn, became the bride of Howard J. Bonner, son of Mr. and Mrs. Gordon Bonner, of Millburn, in a double ring ceremony Saturday afternoon at 2:30 o'clock. The Rev. L. H. Messersmith performed the ceremony at the Millburn Congregational church which was decorated with bouquets of gladioli for the occasion.

Given in marriage by her brother, Dr. William G. Bauman of Barrington, Ill., the bride wore a gown of white chiffon with a finger tip veil caught to a tiara of orange blossoms. Her double strand of pearls was a gift of the bridegroom. She carried a bouquet of white gladioli tied with a white satin ribbon bow.

Miss Lois Bonner, sister of the bridegroom, was maid of honor, wearing a gown of pink silk organza and matching blush veil, carrying a bouquet of pink carnations. The bridesmaids, Misses Avis and Doris Faulkner, wore identical gowns of blue silk organza, with matching "blushers" and carried similar bouquets.

Milton Bauman, twin brother of the bride, served as best man. James Bonner of Kansasville, Wis., and Lyman Bonner of Millburn were ushers.

The wedding march was played by Mrs. E. A. Martin, who also accompanied Frank DeYoung while he sang "The Sweetest Story Ever Told" and "Oh Promise Me."

The bride's mother wore a blue and white print redigote and Mrs. Bonner chose a navy blue sheer dress. Both wore corsages of salmon gladioli. The bridegroom's grandmother, Mrs. Eliza Bonner, wore a gray print with a corsage of white roses.

Ninety guests attended the reception in the Bauman home immediately following the ceremony.

After a brief wedding trip, Mr. and Mrs. Bonner will be at home in Millburn. The bride is a graduate of Warren Township High school and Lake College of Commerce and is employed in the office of the Johns-Manville corporation. Mr. Bonner, a graduate of Antioch Township High school, is engaged in farming at Millburn.

The couple was honored with two showers, one given by the 40 young people of the Christian Endeavor society on Tuesday evening, and the other given by the bride's cousin, Mrs. Robert Bohm, at her home near Waukegan, Wednesday evening.

## News of the Boys in Service

there for catching them down deep. Have some German browns that will go pretty good size. Hear that Homer isn't feeling so well. Hope he improves so that he will be able to make a trip with us when this thing is all over. Tell him to keep his chin up.

"I have been in the desert—it hits 140° some days. You can imagine the hot wind."

"Tell all my friends hello when you see them—Ben Burke, George Bacon, Ed Vos, Bob Mann and many more—you know whom I consider my sporting pals."

Sidney H. Reeves, long a leading Antioch druggist, has been receiving congratulations from some of the service men on his eighty-fifth birthday anniversary, which he observed on Sunday, July 18. Mr. Reeves retired about a year and a half ago.

From Pfc Lyle A. Teichert, Btry. C, 781st AAA Bn (AW)—

"I remember when I used to come in your store and get free cones when I was in grade school. And now I'm fighting for my country. Some change! I like the army in some ways. It's hard to get used to after civilian life. You have to get used to taking orders and commands, and when you make the grade as corporal or sergeant, you give the orders. So all in all, we take it either way... I wish you all the happiness in this world."

Over many years, it was Mr. Reeves' custom to give free ice cream cones to children in the Antioch Grade school, once a week. Now the boys, and some of the girls, too, who used to look forward each week to those ice cream cones at "Daddy Reeves" are scattered all over the world.

"We live very much like the boys, and in fact, when we first arrived we got up earlier than they, and they complained because our drill officer, wrote them up with her commands," writes AFC Lorraine O. Pape, 758th WAAC Post Hq. Co., Army Air base, Alamogordo, N. M. "We have two mornings a week of drill and one of physical training. Two evenings a week we have classes, besides working eight hours a day. The rest of the day is ours." AFC Pape also comments, "The fellows treat us as soldiers and really seemed glad when we arrived."

Says Pvt. Jim Harvey of the Marine Corps, MD, NTU, Monomoy 12, Denison university, Granville, O.— "One doesn't appreciate the little town of Antioch until he is far away. I would also like to congratulate Mr. John Horan upon his election as Junior Vice-Commander of the Tenth District (American Legion). He deserves all the credit given him and I am sure that his selection was not a wrong one."

From T 5 Arthur B. Thompson, 756th Engr. Parts Supply Co., Camp Claiborne, La.— "I was sorry to read about the death of Lt. Frank Velisek, USN, a very dear friend of mine. It's too bad the news cannot always be good news. Down here as everywhere else we are on the ball trying our very best to make it good. I noticed in your paper that the folks at home are also doing every thing they can to help us win this war, which is about the best news we can get at the present time."

"I've been here at Camp Claiborne since the Fourth of July... when reading Murphy's letter in your paper I noticed he mentioned that Dickie Folbrick, Bob Graham and Chuck Friedle are in Texas. All of us were inducted together and spent our first week in the army at Fort Custer together. Dickie and I bunked together in an upper and lower. We hoped we would be able to stay together, but I had signed up with the engineers. If you could send me his address I'd appreciate it very much."

"I'll have to close now and do some typing for the captain, or I'll find myself doing K. P. If you know of any of the fellows that are down here in Camp Claiborne, please let me know their address so I can look them up."

**Birth**  
Mr. and Mrs. Joseph Anzinger are the parents of a baby boy born early Wednesday morning at Burlington hospital. Mother and child are reported to be doing well.

J. B. Drom and daughters, the Misses Beulah and Edna Drom, called on the former's sister-in-law, Mrs. Sadie Harrison, in Waukegan Monday.

Mrs. Richard Chapman entertained the Eastern Star Officers' club at her home Tuesday.

## Great war plants built in record time

In America's war production program, one of the achievements of Northern Illinois has been the building of some of the world's largest war plants in record time.

The construction of all these huge industrial plants has been speeded by the use of electricity. Brilliant electric flood lights turned the hours of darkness into hours of building. Electrically operated hoists, hammers, concrete mixers, conveyors and scores of other machines saved weeks of time and work.

Yes, Electric Power is the power that speeds building... the power that speeds production... and the power to speed victory.

Electricity Speeds War Production

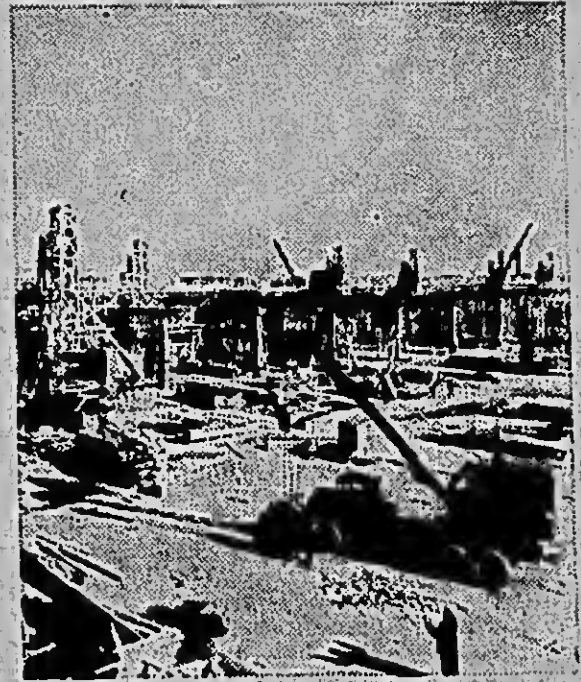

Under flood lighting, construction of one of the world's biggest war production plants goes on through the hours of darkness. This electric illumination has enabled the night shift to continue where the day shift left off.

One hundred fifty carloads of sand, cement and stone were brought to every day for construction of this huge war plant. In the background can be seen one of the electric concrete-mixing mills built especially for this job.

A close-up of an electric conveyor that saves hundreds of man-hours. Correct proportions of sand, cement and stone were poured onto this conveyor and carried to the concrete mixer.

Electric Power played its part in cutting and shaping the thirty million square feet of lumber used for concrete forms and supports during construction of this gigantic war plant.

Electricity has gone to war — don't waste it!
